**\$2.95 up to \$10.00**  
Hats of soft, pliable felts and acetate, featuring all the details of the new mode, as irregularity of brim, higher forehead lines and deeper at back.

## PREMIER ANNOUNCES GULL LAKE PLANS

Will Be Made Most Beautiful Resort  
In the Province

Edmonton, Sept. 24.—With the acquisition of land at Gull Lake and Sylvan Lake, and the recent grant of land on the site of the new artificial lake being constructed by the Calgary Power Company on the Ghost river, the Alberta government has this year made a definite start on Premier Brownlee's project for the setting up of public parks and beauty spots throughout the province.

A further step will be taken at the forthcoming session of the provincial legislature, when the house will be asked to sanction the setting up of a parks board to supervise the development of these and other park areas to be selected later, such development to be undertaken over a period of years.

The plan, according to Premier Brownlee, is a two-fold one—first, the acquiring of public park sites at such places throughout the province that residents of any of the cities of Alberta will have within a radius of 40 or 50 miles of their doors, publicly-owned beauty spots, where they may take recreation; second, that these places be so developed, and such suitable buildings erected, that any of them may at any time be used for public meetings, conventions, and the like, by people in the districts adjacent to them.

Mr. Brownlee was moved to the latter part of his plan by seeing from time to time throughout the province the efforts made by various bodies to hold gatherings where there was no accommodation for a large crowd of people, other than an open field or a grove of trees.

The Gull Lake park site, which will be more or less typical of all the projected parks, has advanced to the stage where some 800 feet of water front, and about 20 acres of land back from the lake, have been acquired with cottages and buildings to form the nucleus of a permanent pavilion and other necessary structures.

Plans secured by J. D. Robertson, deputy minister of highways, show an attractive layout of buildings, playing area, car-parking space, camp grounds, and the like, a pavilion for dances and public meetings, a bathhouse, and a pier 450 feet long, the whole being suited to practically every need, whether of the auto tourist, the summer camper, or the larger convention or public meeting gathering.

The parking area planned at the Gull Lake site provides space for 400 autos, grounds for baseball, soft ball, tennis, football, children's playground, picnic grounds, auto camp, etc.

The pier will be eight feet in width extending as stated, 400 feet into the lake with a rock-filled T-shaped terminus which will act as a breakwater for boats. At Gull Lake two double-story buildings and several smaller ones have been bought, while the land, and will be used in the later development plans. Plowing and leveling of the site is now in progress, and seeding and tree-planting will be undertaken in the spring of next year.

Great interest is being taken in the plan by other provinces. Mr. Brownlee stated, since Alberta is again in the forefront, by its new parks policy a plan not tried as yet by other provinces.

The second big project is that of the new park and summer resort on the Ghost River, round the lake created by the new power works there. The Calgary Power Company some time ago donated 200 acres of land along the lake shore, for the use of the province. This land front the lake, and lies between it and the Calgary-Banff highway.

Water levels have been taken at the new lake by the town planning commissioner, H. L. Seymour, who is now busy on plans for development of the site. A public park, summer cottages, aquatic club house, and other buildings will be included in the development there.

At Sylvan Lake the provincial government has secured by purchase a long strip of the beach, which will thus be preserved for the use of the public in perpetuity, and while plans for development there are not so comprehensive as those at Gull Lake, Premier Brownlee is satisfied that the land on the lake frontage at least has been secured by the Province.

Co-incidental with this development will be that of some 65 tourist camps along various highways throughout the province, and the preservation of natural beauty sites adjacent to main roads.

The plan is a far-seeing one, the final maturity of which may take some years, but the definite start now made gives Alberta a real lead in the matter of providing recreation places throughout the province.

### TO THE EDITOR

Dear Sir:

It seems that Mr. Denson and myself just can't agree, and though I hate to do it, I must find something to things he said about me in his recent letter. He seems to be laboring under the impression that the CityChaps arranged the much talked about, upland and condemned "Sunday Bazaar," and goes so far as to say "I told him."

I admit that he and I did have quite a talk in regard to the races, and if my memory is up to par, I remember telling him that "Sunday was the only day the 'City Bore' could come, so," we therefore arranged the races for that day." In other words, FOR the City Chaps, but not BY THEM. A slight difference in understanding which is more or less excusable. But at the same time, he should have known better, notwithstanding anything I may have told him as in all the papers the Regatta was advertised as under the "Gull Lake Aquatic Club's Auspices," the same convention was printed in the Posters for the event, and in view of the above, how he could be mistaken in beyond my comprehension. I had no reason to "lie" about it, and even if I had, I wouldn't have, as I knew the "Papers" would expose me.

I'm not going to accuse Mr. Denson of being a coward for switching my private conversation around, knowingly or unknowingly, even though he called me one for less.

As for "myself making all the arrangements," I am secretary, did just that, acting under instructions of the members; and I believe I told Mr. Denson that at the time he "jumped me about it." However it is not my intention to carry on this controversy any longer. For one reason, I do not wish it to assume the "Puffer-Chowen" proportions, and anyway I don't think Mr. Denson will be convinced by anything I might say. The question of "right and wrong" has been thrashed out in previous issues of the "Globe" and were I giving a "News-paper Decision" on the Bout, I'd give it to the supporters of Sunday Sports.

Thanking you, I am,  
Yours truly,  
Barney Halpin.

### Here and There

(394)

In commemoration of the ill-fated d'Amville expedition which encamped on the shores of Bedford Basin in 1746 and in which d'Amville and many of his men died of illness, His Honor Lieutenant-Governor Tully of Nova Scotia unveiled a monument erected by the Historic Sites and Monuments Board of Canada at Rockingham, N.S., recently. Many distinguished guests attended the ceremony.

Total quantity of strawberries exported from Nova Scotia to the United States during the present season was 7,804 crates with 32 boxes to the crate. The total quantity of the province has attained record proportions, 29,914 crates having been shipped to Boston so far this year, with another month to go, as compared with 17,442 crates for the whole season of 1924.

Major prize winners at the Highland Gathering and Scottish Festival recently held at Banff are announced as follows:—Piper Sergeant Donald McLeod, of the Queen's Own Cameron Highlanders of Winnipeg, is the winner of the special inter-regimental competition for delegates; pipers from Canadian Highland units and holder of the E. W. Beatty Trophy; Piper Sergeant J. K. Cairns, of Hamilton, is the winner of the special trophy competition, open to all regimental pipers who are regular members of a pipe band officially connected with any regiment or unit of the Canadian militia; and Piper Hector McDonald, Royal Highlanders, Montreal, took the highest aggregate number of points over all in the open piping events.

According to figures obtained by the Canadian Pacific Railway Limited, the port of Vancouver now ranks first of Pacific Coast ports, outstripping San Francisco and Los Angeles in volume of outward and inward shipping traffic and tonnage of exports and imports.

I was paying my first official visit to Canada as Chief of the Salvation Army and while here I hope to meet at the three annual gatherings to be held in the Dominion every officer of the Salvation Army in Canada and Newfoundland, said General E. J. Higgins, newly elected head of the Salvation Army, who arrived at Quebec recently on board S.S. Empress of Australia.

More than 365 miles of new rail lines in western Canada will have been completed and turned over to the operating department of the Canadian Pacific Railway in the period between June 15 and September 15 of this year. It is the statement made recently by D. C. Coleman, vice-president of western lines of the system. The lines mentioned do not include, Mr. Coleman added, a further 370 miles of lines under construction at September 6.

Inauguration of 1,250 miles of air mail service on the Prairies is expected about October 1, linking Winnipeg with Canmore, Alta., and thereby saving a day's time between the points.

The Peace River country was invaded by the most important group of visitors ever to penetrate its territory on September 6, when 240 members of the 1929 convention party of the Canadian Chamber of Commerce left Edmonton in three trains for a four day sojourn in that section. The party was joined later by 80 delegates to the 14th annual excursion of the Vancouver Board of Trade.

### A CASE FOR THE LASH

From Weyburn, Saskatchewan, comes a story of inhuman cruelty. It is a dumb animal which puts the tales of Edgar Allan Poe into the background for sheer horror. It appears that a certain individual conceived the refined cruelty of hitching a rope to a horse's tongue, a second horse harnessed to the other end, and in this way of pulling the poor brute's tongue out by the root. The inhuman culprit is reported to have been hauled before the local police magistrate and fined \$50.00. The conviction is likely to be appealed.

twentieth century there should still be fiends who can resort to cruelties which probably pre-historic man would be ashamed to practice. If there were any provision in the law for the administration of the cat o' nine tails for such a heinous offence against God's creature, the maximum penalty would not be too great. An article in words could portray, if he would, the agony of the unfortunate dumb animal during and after this barbarous veterinary operation. In a less enlightened age the culprit would have found himself ducked by the mob in the village pond. It is sometimes a pity we have got beyond that stage.

## Simons-Cameron Wedding

A quiet but pretty wedding was solemnized on Friday, Sept. 20th at 1:30 p.m., when Flora, fourth daughter of Mr. and Mrs. Dumas Cameron, became the bride of Mr. O. J. Simons, of Dayland, Alberta.

Standing under a large white bell and amid a beautiful shower of golden glow with a background of pretty autumn foliage, the bride and groom exchanged their marriage vows before Dr. M. White, of Calgary, who performed the ceremony in the presence of their immediate relatives and friends.

The bride, given in marriage by her father, was charming in an exquisite rose beige ensemble trimmed with silk lace. Her bouquet was of pink roses and heather.

The wedding march was played by Miss Sheila Cameron, sister of the bride, and the strains of the Norwegian Cradle Song could be heard during the signing of the Register.

After the ceremony luncheon was served, the tables looking wonderfully attractive in a color scheme of mauve and pink. Carnations and Sweet Peas formed the table decorations with a sprig of purple and white heather, (also especially from the Auld Land) for gracing the centre of the bride's table.

Leaving by motor for a short honeymoon trip in Calgary and Banff, the bride wore a black satin frock trimmed with yellow, with a black felt hat and yellow scarf to match, black satin broadcloth coat trimmed with erasral and gloves and hand bag of two tones of blonde.

Mr. and Mrs. Simons will make their home in Dayland, where Mr. Simons is employed in the Bank of Montreal.

Out of town guests were: Mr. and Mrs. A. Constable, Calgary; Mrs. J. Ward, Edmonton; Mr. and Mrs. Gillespie, Dayland; Mr. Dixon, Camrose.

## Clive News

The Annual School Fair held in the Community Hall on Friday, Sept. 20th proved to be a gratifying success. The day was all that could be expected, sunny, warm and bright. School children with their parents and exhibits of live stock, grains, grasses, vegetables, flowers and school work, came from towns on the East and Chiswell on the West.

The Judges and Inspectors all complimented Clive on the best exhibition yet held. There was a great variety of articles shown, and the quality of the exhibits excellent. It was the best School District fair they had yet presided over this year, and gave great prizes to the local School Board's Fair executive, as well as the hearty co-operation of both the teachers and the pupils. Inspector Gibson requested that the First Prizes in Art, Writing and Map Drawing should be taken to the forthcoming Teacher's District Convention and their decisions would be given as to whom the individual prizes should be won. Special mention will be made of our experienced and most capable

School District Secretary, Mrs. A. P. Bainforth, who really engineered the School Fair and contributed so much to its success, and to whom the entire community owe a debt of great appreciation. The children also greatly enjoyed the sports provided, taking part very enthusiastically, though it was hard for them to tear themselves away from their own and their chum's exhibits.

In their closing remarks the judges encouraged each school and all School Fairs to have not only individual singing and recitation but the whole school in competition; to have a parade so that the officials as well as the parents could see more of the physical drill and discipline of the children. Many of the girls and boys have good voices and they ought to be able to express their personalities in this way as well as studying the three Rs. The Fair was honored by the visit of Inspector McLean of the Three Hills Inspectorate, a pioneer Educator of Alberta's Public School children and a former School Inspector here. The W.I. served a dainty lunch and reported a successful addition to their funds.

We are hoping that the School Fair project will go on and next year be bigger and better than ever.

## WAR PROPAGANDA CONDEMNED

All lovers of peace will hail with satisfaction President Hoover's declaration that he will not tolerate economic tolerance by great ship building corporations in international negotiations for naval disarmament. He condemned with unmeasured severity the methods of one William B. Shearer, a publicity agent for several of the leading United States ship-building firms whose propaganda had helped to nullify the preliminary arms conference at Geneva in 1927.

Shearer with unlimited funds behind him deliberately set out to create international distrust and hate between the United States and Great Britain. Camouflaging his diabolical intentions with appeals to American patriotism and the necessity for preparedness against a potentially stronger foe, he initiated probably the most deliberate publicity for war that the world has ever seen. He received blood money amounting to \$57,000, from ship-building corporations concerned and is now openly selling for some \$250,000, which he claims is the balance due for his services.

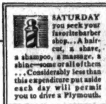

The Council of the League of Nations is now in session at Geneva. Its preliminary meetings have been marked with the greatest enthusiasm and more practical progress towards outlawing war than at any time in its history. Henderson for Britain, Briand for France and Stresemann for Germany have eloquently advocated a new consideration of the covenant to make war an impossibility. "Hopes are high" for satisfactory agreement between Britain and the United States for a big reduction in naval construction. But, all the best intentions of the world's greatest statesmen may come to naught if a public meeting will be held under the auspices of the W.M.S., at which Mrs. J. G. Grevelt, of Calgary will speak on the Temperance question. Mrs. Grevelt is a prominent L.O.D.E., and W.I. worker, and members of these organizations are specially invited to attend this meeting.

It was stated by a former premier of France in 1922 that prior to the Great War many of the leading armaments producers of the world were spending millions annually in propa-

ganda in favor of war and naval and military preparedness. Are we face to face once more with a similar situation and have some of the great shipbuilding firms also become traffickers in human life and advocates of dividends on death? If so, surely it is the duty of the press of this and every country in the world sincerely striving for peace to look for and exterminate this damnable propaganda of greed and wholesale murder.

## Will Talk on Temperance

On Wednesday evening, October 9th, a public meeting will be held under the auspices of the W.M.S., at which Mrs. J. G. Grevelt, of Calgary will speak on the Temperance question. Mrs. Grevelt is a prominent L.O.D.E., and W.I. worker, and members of these organizations are specially invited to attend this meeting.

## Plymouth excels in motor car Essentials

THE four things to consider most in selecting a motor car, are: The body, wherein you ride; the engine, which makes the car go; the brakes, on which your safety depends; the first cost and the economy of operation and maintenance, which affect your pocketbook.

**ROOMIEST, STRONGEST, MOST STYLISH BODIES**  
Plymouth bodies are full-size—out-measuring the entire low-priced field in leg-room, elbow room and head-room. Plymouth bodies are the strongest to be found on any automobile at either a low or a medium price. Plymouth bodies are fortified for silence and safety, yet smartly styled.

**SMOOTHEST, QUIETEST ENGINE**  
The Plymouth power plant follows throughout the basic principles of Chrysler engineering—with Chrysler-like results, performance that is flexible, smooth, swift and quiet.

The Full-Size 4-Door Sedan, \$890. Special equipment extra.

and upwards, f. o. b. Windsor

**SUREST, SAFEST BRAKES**  
The full-size Plymouth is by far the only low-priced car on the road. It is the only low-priced car with Chrysler weatherproof four-wheel hydraulic brakes always equalized.

**LOW UPKEEP COST**  
The Plymouth is Canada's lowest-priced full-size car. More than that—it's simple, rugged and efficient engine benefits you by a remarkably sparing use of gasoline and oil.

**PLYMOUTH**  
CANADA'S LOWEST PRICED FULL-SIZE CAR

THE CANADIAN-BUILT PLYMOUTH FOR CANADIANS

# Amazing! New! QUAKER METHOD makes bread baking easy

How to bake delicious bread and rolls easily, quickly, described in attractive free booklet

YOU know Quick Quaker Oats—how this wonderful development in cereals cuts many tedious minutes off the cooking of breakfast. Now we want you to know, and to try, an amazing new way of baking...perfected by a master baker.

The Quaker New Easy Method of bread baking makes tiresome kneading unnecessary. Does away with "setting the sponge"...and gives rolls and bread lighter, more delicious and more appetizing than you've ever tasted.

It's fully described and illustrated in a beautiful little booklet—a copy of which we'll be glad to send you free. Just fill in the coupon. Or ask the Quaker Flour dealer for one, next time you visit his store. Be sure to get a bag of Quaker Flour, too. It's the finest you can buy. For satisfactory results use it always when you bake the New Easy Way. Use Quaker Flour for every household purpose. It's dependable...tested at every stage in milling and baked daily in our own kitchens to prove its baking qualities.

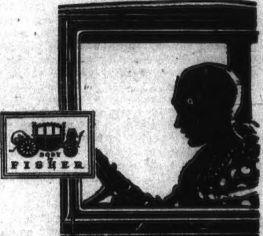

426W.

## Drive It... and let your own experience sell you

NO one who has sat behind the wheel of the New Chevrolet Six could ever be contented with less than the quality...less than the performance that this outstanding SIX provides.

For Chevrolet is the lowest priced six in the world with this remarkable combination of fine car features:

Body by Fisher, with deep, richly-upholstered cushions, Fisher VV Windshield, Tensard Fittings, fashionable Duco colorings, smartly beautiful design. Six-cylinder valve-in-head engine, of high-compression non-detonating type, with the extra efficiency of "direct firing" and swifter pick-up due to automatic accelerating pump.

New design, ball-bearing steering gear, giving marvelous handling ease.

Efficient braking system of non-locking four-wheel brakes and independent emergency brakes.

Long semi-elliptic, shock-absorber springs, parallel with the frame.

Modern Convenience Features, twin-beam headlights, foot-controlled high-speed window regulators; indirectly-lighted instrument panel, including electric temperature gauge and theft-proof Electrolock.

And all these, plus the established economy and staunch endurance for which Chevrolet is famous, at the price of a four! Drive it and let your own experience sell you on Chevrolet SIX!

## Correspondence

The Western Globe,  
Lacombe, Alberta.

Dear Sir:

As a subscriber of your valuable paper for the past sixteen years, I am afraid that I am compelled to discontinue my subscription at once or account of an article reproduced in the "Globe" dated Aug. 29th, describing a Regatta or Canoe Race held at Aspen Beach on the Sunday of Aug. 25th. My decision has not been in haste, but after talking it over with my wife, we have decided that such literature should not come within the portals of our home, where it may fall into the unsuspecting hands of our growing children.

For, Mr. Editor, you know, as every God-fearing man knows, that Our Lord made the first day of the week, in a special sense his own, by ceasing the work of creation, and resting.

Mr. Bishop, the first principle embodied in the Lord's Day is the duty of us all consecrating a seventh part of our time to the special service of God. This was not done on Sunday, August 25th.

The Second Principle is the periodical suspension of human toil. Canoe racing is human toil, Mr. Editor, as only a canoeist knows.

In order to make this day—by this prohibition, unlike other days—in order to make room for the acknowledgment of God in its ordinary occupations are suspended. Of course, Mr. Editor, canoe racing is not an ordinary occupation, but being an occupation, should it not be suspended?

The Lord's Day is the day upon which Our Lord Jesus Christ has the first claim. It is not wise or reverent to suppose that all the religious duties of a Sunday can be properly discharged before breakfast—and that the rest of the day can be spent carding, golfing, playing tennis or canoeing. Is that religion? No Christian, with his heart in the right place would think so.

The motor car, tennis racket, golf club and canoe paddle are the price religion has to pay for what is called "Modern Civilization." God spend the day when they will be dispensed with.

Sunday, religious obligations having been complied with, the rest of the day should be spent in duties of Religious Brotherhood, kind deeds and words to friends, visits to the sick and needy; it should be a solemn day, and a day of pity—for the wretchedness in the six days of the week to come.

Yours very truly,  
(Rev.) Augustine LeTash  
Hoadley, Alberta.

## NUTRITIOUS ARROWROOT BISCUITS

It may be said without fear of contradiction, that Canadians, generally, do not eat as many biscuits as they should, particularly such as Arrowroot and Paulin's Digestive Biscuits. Every household, for instance,

should never be without a goodly supply of Arrowroot Biscuits, especially those homes in which there are young children. Arrowroot Biscuits, of course, are so called because they are made from Arrowroot Flour, the best of which comes from St. Vincent, in the West Indies. Why, it may be asked, should this Arrowroot Flour be brought all that way when we have the finest wheat in the world growing right here in Western Canada? The answer is that, long ago, Arrowroot was found to contain a specially nutritious starch which formed a most easily digested food and it was soon discovered that this starch was particularly suitable and beneficial to infants and convalescents. That is why you should always have Paulin's Arrowroot Biscuits on your pantry shelves, and see that they are included in your family's daily diet.

## The Wheat Situation

The course of wheat prices in the next few months will be almost entirely dominated by the situation in South America and Australia. So finds the Institute of Food Research of Stanford University, whose studies on the wheat crop from year to year are usually considered authoritative. In its most recent bulletin the Institute points out that not export for the crop year 1928-29 reached a record figure, about \$65,000,000 bushels. Extraordinary heavy stocks of wheat in exporting countries continued to characterize the crop year 1928-29, which closed with by far the largest outward carryover of post-war years. Stocks were also large in European importing countries. The new crop year thus opens with this huge accumulation of stocks. On the other hand, the Northern Hemisphere crop (ex-Russia, China and Asia Minor) is among the smallest in recent years. Canada has a short crop and United States a rather small one, but Europe may harvest one of the largest crops since the war, especially in the importing countries.

From all these facts the Institute deduces that the outlook for trade and prices is not clear. "With the Southern Hemisphere crops not yet made," it states, "the international statistical position in 1929-30 will almost certainly prove tighter than those of 1928-29 and 1928-29; but, in the absence of extreme crop damage in the Southern Hemisphere, it will probably prove less tight than those of 1924-25 and 1925-26. Insofar as the international statistical position may be held to dominate prices, the level of international cash wheat prices in the ensuing six months thus seems likely to range well over the levels of 1924-25 and 1925-26 unless severe crop damage occurs in the Eastern Hemisphere. Upon such crop damage also depends in large part a possible change in existing international price relationships."

Mr. and Mrs. W. F. Graham, Vanco-  
ver, is visiting in Lacombe, the guest  
of Mrs. D. F. Chisholm.

The sewer mains throughout the  
town are nearing completion and the  
contractors expect to commence on the  
water system next week.

**HUMPHRIES-O'BRIEN**  
The marriage of Miss Louise  
O'Brien, daughter of Mr. and Mrs. E.  
Boyd, Lacombe, and Mr. H. L. Hum-  
phrey, well known farmer of this dis-  
trict, took place at Red Deer on  
September 25, 1926. Rev. D. W. Smith,  
officiating. The young couple will  
reside on the groom's farm south-  
east of town, and have the best wishes  
of their many friends.

**THE SALVATION ARMY**  
Sunday 11 a.m. Balmes meeting.  
Sunday 7.30 p.m. Public Worship.  
Sunday School at 3 p.m. for those  
who go no where else.

The Home League will meet in the  
Quarters every Thursday at 2.30 p.m.  
All the ladies are cordially invited to  
attend.

The Band of Love meets every Sat-  
urday at the home of Mrs. R. B.  
Thompson. A sewing circle for the  
ladies of the rising generation.

**AUTO CURTAIN REPAIRING**  
Fred Taylor has just installed a side  
curtain repair outfit, which he will  
operate in connection with his tire  
vulcanizing business. He is prepared  
to make your side curtains as good  
as new, and now that the cold weather  
is coming on, it is the time to have  
these repairs made. He guarantees his  
work. His vulcanizing business is  
increasing rapidly, and his prices  
are so reasonable that it pays to have  
your old or damaged tires treated, ex-  
tending their usefulness hundreds of  
miles. He also has on hand second-  
hand tires for all makes of cars, and  
you can get really serviceable tires  
for all makes of cars, at a small  
fraction of the cost of new ones. See  
him at his shop next to Fraser-Mac-  
donald Agency, Allin St.

**AT THE REK THEATRE**  
Friday and Saturday  
Rin-Tin-Tin in his very latest pic-  
ture "Frozen River". Don't miss  
this wonderful trap line story. 2 reel  
comedy and Fox News. Matinee Sat-  
urday at 2.30.

Monday and Tuesday  
At Lacombe and Clive Saturday  
night, "Tom Tyler and Frankie Dar-  
row in their action comedy Western  
"The Pride of Pawnee." 2 reel com-  
edy and "Screen Laughs." This is  
an exceptionally good program and  
Screen Laughs are something new.  
They're Good.

Real Saturday Night  
Reginald Denny in his very funny  
farce comedy "Good Morning Judge,"  
and 2 reel comedy, "She's A Pippin."

**ANNOUNCING TALKING  
EQUIPMENT**  
Talking Equipment will be installed  
immediately at the Rex and will open  
on October 2nd, 3rd, 4th and 5th, Wed-  
nesday, Thursday, Friday and Sat-  
urday, next week with our first all-talk-  
ing program.

Mr. Murphy was in Calgary yester-  
day looking, talking pictures for the  
Rex Theatre, and from word received  
today the opening picture will be  
"The Sophomore". This picture is a  
college comedy and is all-talk-  
ing. "The Sophomore" was played for  
the first time in Edmonton this week  
and is said to be one of the best pic-  
tures released this fall. Although it  
is not certain that "The Sophomore"  
will be the first play, the film ex-  
change assured Mr. Murphy that if it  
was impossible to secure "The Soph-  
omore", that they would send one  
that would give satisfaction.  
Admission for week-end and the short  
days before cold weather. The prices  
are lower this year, and we have a  
large selection at Lacombe Furniture  
Store.

vocal numbers, etc., and will show at  
Regular Prices.

**NOTES**—The talkie industry is still  
in its infancy and has not yet been  
adjusted to the needs of the smaller  
centres, such as Lacombe. Lacombe,  
which is much smaller than Red Deer  
has to pay the same price as Red Deer  
for the equipment and Talking Films,  
and has not half the people to draw  
from, therefore, I will ask you to give  
me your best support in this expen-  
sive venture, in keeping Lacombe  
ahead of other small towns and equal  
to larger theatres. I on my part will  
promise you that only the very best  
Talkie programs procurable will be  
shown.  
(Sgd.) F. L. Dunphy.

Applicant.

# The Newest Fall Fashions

Now on Display in Our Ladies' Wear Department

## Just About Everything In New Coat Fashion

Coats that are richly materialized and lavishly fur-trimmed—coats with a flare or with seaming to accent their slimness of line—coats with the new spiral cuff that flatters the hand and arm—coats with the classic shawl fur collar—a varied and extensive collection of women's beautiful winter coats. Materials are fine broadcloths, duvetyns, French needle-points, camel's hair, and the furs are luxurious fox, squirrel beaver, wolf, sable, Persian Lamb. Colorings; softest greens, blues, fawns, browns, blacks—the newest Fall shades. Every coat lined with a heavy silk crepe. Sizes 16 to 20 and 36 to 42. Coats in which emphasis has been laid in fashion and value.

## The New Fall Frocks

Early Fall Frocks with style smartness usually found only in garments priced at much more, featured at a most tempting price. Rich Satins, Crepes, and a few in light wool materials. Clever touches at collar, cuffs, and belts. New skirt lines are featured. Leading fall shades are here in profusion.

## The Newest In Gloves

It cannot be denied that gloves add the finishing touch to one's costume—in fact, they are pulled on while hurrying out the door. Capeskin gauntlets with set-in gusset at wrist, and all-round strap in contrasting colors. Others have half strap fastening at wrist. Some are silk-lined. Smartest colors.

## A Select Grouping of New Fall Felt Adaptations of French Successes

Imported felt hats of the finest, smoothest felt you can imagine. The styles reach the peak in chic smartness. The brimmed tailleur with wide gros-grain banding—plain distinction that can't be described. The new "fisherman" back, the smart drooped sides, off-the-face severeness—each new style note has been carefully incorporated in these better hats. In the newest colors with the smart brown and the new black included.

## Beautiful Silk Lingerie

Lovely in Appearance—Practical in Service

Silk underwear of lovely sheerness, offered at a decidedly moderate price for lingerie of such quality. Choose from Gowns, Chemise, Bloomers, Stepins, French Panties or Dance Sets. Lingerie of this high quality is the usual choice of women of taste and discernment.

## Farmers Favor Municipal Hospital

After serving a population of approximately 20,000 persons for nine years, the Drumheller Municipal hospital has been enlarged this year to provide an additional sixty beds, thus increasing the accommodation from 80 to 140 beds. The growing demand for hospital service made this necessary, and the hospital board undertook the task without anxiety, for a surplus of \$70,000 had accumulated in those years, and the financing of a \$50,000 wing offered no problem. The wing has been built and equipped out of the surplus and a sum sufficient to tide this over any possible emergency remains in the coffers. Consequently the members of the board and residents of the district generally, will carry themselves proudly when the extension is opened in the near future.

The Drumheller hospital serves an industrial as well as an agricultural area, the residents of the town being largely miners engaged in the rich Drumheller coal mines. These miners carried the day when the first hospital vote was taken, for the rural population was strongly opposed to the idea, and the vote was defeated at every rural point. However, this opposition was short lived, for the country people soon saw the value of the hospital to them, not only from a humanitarian point of view, but because it increased the value of their land. Now they are staunch supporters of the hospital.

From the first, the miners favored the Municipal hospital scheme. Mine accidents are all too common, and as housing conditions for the Drumheller miners are not of the best, there was considerable sickness among their families. Then too, there were maternity cases to be given care. Rural ratepayers in this hospital district approximately 40 miles square are taxed at the rate of 2 1/2 cents per acre for the hospital upkeep; urban property owners pay a tax of 3 mills on the dollar. In return, all secure the hospital treatment for \$1.00 per day for themselves and families. Non-taxpayers may do so by paying \$6.00 per year to the secretary treasurer.

Miners secure free hospital service for themselves and families by paying \$2.00 per year per man to the hospital board. Under this plan the miners contribute some \$30,000 toward the hospital upkeep, and since many of them are bachelors, and there are also many transient miners, this sum covers their share of the expense.

The agricultural-industrial combination works well. Short crops do not affect the town of Drumheller or the hospital, as they do other towns and hospitals, because Drumheller, though situated in the heart of a great wheat growing country is largely built up by and around the coal industry. Frequently the men who farm in summer, join the miners in winter, or even in summer if the crop is light. But miners seldom go to work on farms in the summer. Few of them make good farmers and they do not like working in the open.

In the year 1928, 2,083 patients were cared for in Drumheller hospital. Maternity cases numbered 131, with only one maternal death recorded. 142 major and 393 minor operations were performed. The daily average for the year was 59 patients, and from October 1928 to June 1929, number never dropped below 55. In February, the average was 76. The chairman of the board, A. P. Hanley, believes that in five years' time at most, it will be necessary to build a nurses' home, this relieving the hospital purposes the rooms in the new wing now set aside for nurses' quarters. A staff of nine graduate and 15 undergraduate nurses looks after the sick.

With the hospital available, the cost of sickness in the Drumheller district has greatly decreased, as people come to the hospital for treatment thus saving the mileage fee which the doctor must charge when he visits them at their homes. The district is well served with railways, being on the Calgary-Edmonton, and the Calgary-Saskatoon lines of the C.N.R. and the people can be brought to the hospital by train. The roads are fair also, and this makes it easier to bring the sick in by automobile.

The Drumheller hospital, a three story brick building, is situated in an acre and a half of grounds, on outskirts of the town, overlooking the Red Deer river. It is well equipped for all hospital purposes, and is highly appreciated not only by the public, but by the doctors of the town who find it a good workshop. With the hospital available, they say they can give the people a service not possible were it necessary to care for them in their homes.

(By Edna Kells)

## MEADOWBROOK

We see Courtney Howard is building a garage for his new Ford. The threshing is nearly all finished in this district and some mills have pulled home for another year. The grain turned out better than the people thought for.

We are sorry to hear that Mrs. Frank Riley was on the sick list for a while, but hope she is better now. Mr. Jimmie Heath and Mr. Dredge

motored here from Canmore.

The Ladies Aid held their meeting last Wednesday at the home of Mrs. Huseby, it being one week late on account of threshing. The ladies have planned to hold their chicken dinner in Lacombe at the Rest Room on Oct. 9th from 12 to 2 p.m. Price 50c. A quilt that the ladies have made will be sold, also many other goods.

## REX THEATRE TO INSTALL "TALKIES" NEXT WEEK

Word was received today that the new equipment for the "talkies" has been shipped and will be installed and ready for operation Wednesday night next October 2nd. The machines to be installed are the latest thing in talkies, and will bring the Rex Theatre's equipment up to a standard equal to anything in the province. After October 2nd, the Rex Theatre will be 100 per cent "talkie", and only the very best and up-to-date pictures will be booked.

## LINCOLN NEWS

Please keep in mind that the big hot Chicken supper is coming off in Lincoln Hall on Oct. 4th. No one has forgotten the one Lincoln had a year ago, and this one promises to be better than ever before. Supper hour, 6 o'clock; Price 50c. Children up to 12 years 25c. After supper there will be a short programme and the rest of the evening will be spent in dancing. Good music assured. Everybody come and tell us how you feel afterwards.

## BAPTIST CHURCH

Rally Day 11 a.m.  
Sunday School. A good program and other features, helpful to young and old. Parents are specially invited. The topic on Sunday night at 7:30 will be a follow up of the S.S. Session. Illustrated by a lantern slide, "Who are responsible?" Prayer meeting on Thursday at 8 p.m. Reorganization of the B.Y.P.U. will take place on Monday, 30th at the

home of Mrs. MacFarlane. All young people over sixteen are invited. A social time will also be had.

## CHANGE IN TRAIN TIME

Commencing on Sunday evening, Sept. 29th, the north-bound train will leave Lacombe at 6:47, instead of at 8:32 as at present.

Dr. Hese Stock Preparations at Morrison & Johnston Ltd.

**WANTED HORSES TO WINTER**  
Horses to winter. Lots of feed and running water. Apply to Clarence Bauer, Phone 3111, Lacombe.

**HOUSE FOR SALE**  
5-roomed house with good cellar, on 150 ft. frontage. House in first class condition. Barn, garage and henhouse. A snap. Apply for particulars to Western Globe.

## LADIES' WATCH LOST

Gold wrist watch with initials "L.G.K." on back. Finder notify this office.

## FOR SALE CHEAP

7-tube Day-Tan Radio, loud speaker and storage battery. Enquire at this office, or phone 222.

## OVERCOAT TIME

We have just received our new stock of Winter Overcoats, and are pleased to tell you that never before have we had such a range at the prices we offer. Hundreds of coats to select from.

Big, burly all-wool Overcoats. Made up in Irish freize, mixed tweeds and plain and fancy blue chinchillas and Whiteheads; full plush lined and art satin lined; double breasted models with large, convertible collars, half belted style; all sizes 35 to 38.

## The New Suits For Fall and Winter

Unusually good looking suits for dress or business wear—better tailored, of finer quality fabrics. Included are single and double breasted suits, in two or three-button styles—cut on smart, youthful lines, and finished with peak or notch lapels. The fabrics are sturdy, all-wool worsteds and tweeds. The patterns and colorings are new for fall—dark fawn or blue stripes, grey and brown checks, grey herringbone mixtures. Altered and pressed in our own workshop and the prices are right.
